

Role-Specific Training - Tools & Guided Learning

Introductory support material created from the supplied 13-week training plan. It gives each week a clear session flow, outcomes and lightweight practice.

Week at a glance

Session	Focus	Expected outcome
Session 1	Role-Specific Concepts	Build the domain and technical vocabulary needed for the assigned role.
Session 2	Tools	Become familiar with the primary tools used by the team for development, operations or business workflows.
Session 3	Processes	Understand the team's working process, hand-offs, reviews and quality expectations.
Session 4	Guided Learning	Complete supervised learning tasks with trainer/mentor guidance and feedback.

Session notes

Session 1: Role-Specific Concepts

Build the domain and technical vocabulary needed for the assigned role.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 2: Tools

Become familiar with the primary tools used by the team for development, operations or business workflows.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 3: Processes

Understand the team's working process, hand-offs, reviews and quality expectations.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 4: Guided Learning

Complete supervised learning tasks with trainer/mentor guidance and feedback.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Practice and reflection

These are lightweight practice prompts for the onboarding prototype, not an official assessment.

1. Write five key terms from this week and explain each in one sentence.
2. Draw a simple flow showing how the main concepts connect.
3. List two questions you would ask the trainer before using these concepts in a real project.
4. Identify one practical example from a utility, software system, workplace process or assigned role.
5. Write an end-of-week summary: what you understood, what remains unclear, and what you want to practise next.

Completion checklist

- ☐ I attended/reviewed the planned sessions.
- ☐ I can explain the week's main concepts at a basic level.
- ☐ I completed at least one practice/reflection activity.
- ☐ I recorded questions or gaps for follow-up.
- ☐ I am ready to proceed to the next onboarding chapter.

Note: This is prototype support material. The supplied training plan remains the source for the official week/topic sequence; trainers may provide deeper or updated material.
