

Role-Specific Training - Advanced Scenarios

Introductory support material created from the supplied 13-week training plan. It gives each week a clear session flow, outcomes and lightweight practice.

Week at a glance

Session	Focus	Expected outcome
Session 1	Advanced Role-Specific Learning	Go deeper into the concepts most relevant to the assigned role.
Session 2	Problem Solving	Break down unfamiliar problems, identify constraints and select a workable approach.
Session 3	Real-World Scenarios	Practice realistic cases involving dependencies, trade-offs and incomplete information.
Session 4	Independent Execution	Complete a more advanced scenario with limited guidance and document the approach.

Session notes

Session 1: Advanced Role-Specific Learning

Go deeper into the concepts most relevant to the assigned role.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 2: Problem Solving

Break down unfamiliar problems, identify constraints and select a workable approach.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 3: Real-World Scenarios

Practice realistic cases involving dependencies, trade-offs and incomplete information.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 4: Independent Execution

Complete a more advanced scenario with limited guidance and document the approach.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Practice and reflection

These are lightweight practice prompts for the onboarding prototype, not an official assessment.

1. Write five key terms from this week and explain each in one sentence.
2. Draw a simple flow showing how the main concepts connect.
3. List two questions you would ask the trainer before using these concepts in a real project.
4. Identify one practical example from a utility, software system, workplace process or assigned role.
5. Write an end-of-week summary: what you understood, what remains unclear, and what you want to practise next.

Completion checklist

- ☐ I attended/reviewed the planned sessions.
- ☐ I can explain the week's main concepts at a basic level.
- ☐ I completed at least one practice/reflection activity.
- ☐ I recorded questions or gaps for follow-up.
- ☐ I am ready to proceed to the next onboarding chapter.

Note: This is prototype support material. The supplied training plan remains the source for the official week/topic sequence; trainers may provide deeper or updated material.
