

Role-Specific Training / Project - Assessment & Transition

Introductory support material created from the supplied 13-week training plan. It gives each week a clear session flow, outcomes and lightweight practice.

Week at a glance

Session	Focus	Expected outcome
Session 1	Practical Project / Assignment	Complete a consolidated project or assignment using learning from the onboarding journey.
Session 2	Assessment	Demonstrate understanding through review, discussion, presentation or practical evaluation.
Session 3	Knowledge Consolidation	Summarize key learning, identify remaining gaps and capture reusable notes.
Session 4	Transition to Assigned Team	Confirm next responsibilities, handover expectations, support contacts and immediate next steps.

Session notes

Session 1: Practical Project / Assignment

Complete a consolidated project or assignment using learning from the onboarding journey.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 2: Assessment

Demonstrate understanding through review, discussion, presentation or practical evaluation.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 3: Knowledge Consolidation

Summarize key learning, identify remaining gaps and capture reusable notes.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Session 4: Transition to Assigned Team

Confirm next responsibilities, handover expectations, support contacts and immediate next steps.

Quick check: Explain the idea in your own words and identify one practical place where it could be used.

Practice and reflection

These are lightweight practice prompts for the onboarding prototype, not an official assessment.

1. Write five key terms from this week and explain each in one sentence.
2. Draw a simple flow showing how the main concepts connect.
3. List two questions you would ask the trainer before using these concepts in a real project.
4. Identify one practical example from a utility, software system, workplace process or assigned role.
5. Write an end-of-week summary: what you understood, what remains unclear, and what you want to practise next.

Completion checklist

- ☐ I attended/reviewed the planned sessions.
- ☐ I can explain the week's main concepts at a basic level.
- ☐ I completed at least one practice/reflection activity.
- ☐ I recorded questions or gaps for follow-up.
- ☐ I am ready to proceed to the next onboarding chapter.

Note: This is prototype support material. The supplied training plan remains the source for the official week/topic sequence; trainers may provide deeper or updated material.
